

April 3, 2020

Greetings Pathways Families!

We hope you are well. We truly miss seeing the students in person during this time, but we're thankful we can remain open, communicate with families, and continue to help students work towards their goals.

As you know, Spring Break is scheduled for April 6 - 10. However, with the recent transition to distance learning and social distancing, we are seeing this period as an opportunity for students to continue to progress in their coursework. We ask that over break, you work with your child to support them as you have in the past, helping provide a quiet space to focus on homework, and regularly ask them about their learning to help check progress and understanding.

During this current week, teachers are meeting with their students to devise a plan for the work that is expected to be completed after the break. Our teachers will have an alternative schedule during this time to continue to provide support for our students. However, teachers will be available only for limited support, for example to unlock tests, open up new courses, and for general guidance. Some teachers will be taking a few days for themselves to recharge but will be available to students via email and phone.

Thank you for your continued support and engagement during these challenging times.

Our best wishes to your family,  
Kris Alexander  
Principal
